

HANDHELD

TEAM ACCESS

TEAMCARD ACCESS brings you the next generation family of access control units.

Our **Android Handheld Unit** with a 4" WVGA (480 × 800) TFT-LCD, capacitive dual touch and Android Kit Kat (4.4.2) operating system delivers the next generation in access control.

It is capable of reading Contactless cards & wristbands as well as 2D & 1D barcodes on a full range of media, including Mobile Phones!

Our Android Head Unit integrates seamlessly with TeamCard's leading central stadium access control system
