ACCESS

TEAMCARD ACCESS brings you the next generation in access control units – Our **Android Head Unit**.

With a huge 9.7" touchscreen and Android Jelly Bean operating system it delivers the next generation in access control.

It is capable of reading Contactless cards & wristbands as well as 2D & 1D barcodes on a full range of media, including Mobile Phones!

Our Android Head Unit integrates seamlessly with TeamCard's leading central stadium access control system
